

Human Remains: Unknown continent

ID NUMBER	NAME	PLACE	DESCRIPTION	MATERIALS	SOURCE
27.410	Homo sapiens		Human cranium only	skeletal material; human bone	Gerrard & Sons: vendor
NH.0.177	Homo sapiens		19 human teeth, arranged by type in 9 vials.	skeletal material; human bone	Baldwin, Stuart A.: previous owner; Cooper, John: previous owner; Hepple, D.: previous owner
NH.0.75	Homo sapiens		Malleus of a Human (Homo sapiens).	skeletal material; human bone	Baldwin, Stuart A.: vendor; Cooper, John: previous owner; Rigden, R.G.: previous owner
NH.12.70	Homo sapiens		Bones of right foot of human (Homo sapiens).	skeletal material; human bone	Schlüter of Halle: vendor
NH.22.19	Homo sapiens		Left half of skeleton of Human (Homo sapiens).	skeletal material	Gerrard & Sons: vendor
NH.23.12	Homo sapiens		Skull of a human (Homo sapiens) with bone cut away on the left side to expose the roots of the teeth.	skeletal material	Gerrard & Sons: vendor
NH.25.42	Homo sapiens		Human skull.	skeletal material; human bone	Gerrard & Sons: vendor
NH.27.67	Homo sapiens		Skull of human foetus (Homo sapiens).	skeletal material	Gerrard & Sons: vendor
NH.32.1	Homo sapiens sapiens		Pelvis of a female human (Homo sapiens sapiens) with sacral and caudal vertebrae.	skeletal material	Gerrard & Sons: vendor

ID NUMBER	NAME	PLACE	DESCRIPTION	MATERIALS	SOURCE
NH.35.25	Homo sapiens		Articulated right arm and scapula of a Human (Homo sapiens).	skeletal material; human bone	Gerrard & Sons: previous owner
NH.35.26	Homo sapiens		Right clavicle of a Human (Homo sapiens).	skeletal material; human bone	Gerrard & Sons: previous owner
NH.74.10.2a	Homo sapiens		The contents of one box from a large collection of unprocessed human bone from an archaeological dig.	skeletal material; human bone	
NH.74.10.2b	Homo sapiens		The contents of one box from a large collection of unprocessed human bone from an archaeological dig.	skeletal material; human bone	
NH.74.10.2c	Homo sapiens		The contents of one box from a large collection of unprocessed human bone from an archaeological dig.	skeletal material; human bone	
NH.74.10.2d	Homo sapiens		The contents of one box from a large collection of unprocessed human bone from an archaeological dig.	skeletal material; human bone	
NH.74.10.2e	Homo sapiens		The contents of one box from a large collection of unprocessed human bone from an archaeological dig.	skeletal material; human bone	
NH.74.10.2f	Homo sapiens		The contents of one box from a large collection of unprocessed human bone from an archaeological dig.	skeletal material; human bone	
NH.74.10.2g	Homo sapiens		The contents of one box from a large collection of unprocessed human bone from an archaeological dig.	skeletal material; human bone	
NH.74.10.2h	Homo sapiens		The contents of one box from a large collection of unprocessed human bone from an archaeological dig.	skeletal material; human bone	

ID NUMBER	NAME	PLACE	DESCRIPTION	MATERIALS	SOURCE
NH.74.11.60	Homo sapiens		Very dark cranium of a Human (Homo sapiens) with traces of mold.	skeletal material; human bone	Portsmouth Museum: ; Littlehampton Museum: previous owner; Bognor Museum: previous owner
NH.74.11.61	Homo sapiens		Skull of an adult female Human (Homo sapiens) with mandible attached to cranium with springs and roof of braincase sawn off. An old individual with no teeth remaining in the maxilla.	skeletal material; human bone	Portsmouth Museum: previous owner; Littlehampton Museum: previous owner; Bognor Museum: previous owner;
NH.74.7.1	Homo sapiens		Human cranium with persistent frontal suture. Retains three worn incisors and one canine, the rest of the upper dentition lost during life and the sockets atrophied.	skeletal material; human bone	Baldwin, Stuart A.: donor
NH.74.7.2	Homo sapiens		Fragmentary human remains	skeletal material; human bone	Baldwin, Stuart A.: donor
NH.74.7.2b	Homo sapiens		Contents of one box comprising: two crania and multiple teeth, mandibles and maxillae	skeletal material; human bone	Baldwin, Stuart A.: donor
NH.74.7.2c	Homo sapiens		Contents of one box comprising: one cranium, two right pelvises, left pelvis, left scapula and skull fragments	skeletal material; human bone	Baldwin, Stuart A.: donor

ID NUMBER	NAME	PLACE	DESCRIPTION	MATERIALS	SOURCE
NH.74.7.2d	Homo sapiens		Contents of one box comprising: seven crania, one fragmentary	skeletal material; human bone	Baldwin, Stuart A.: donor
NH.74.7.2e	Homo sapiens		Contents of one box comprising: long bones, one and a half mandibles and some digits	skeletal material; human bone	Baldwin, Stuart A.: donor
NH.74.7.2f	Homo sapiens		Contents of one box comprising: three crania, several mandibles, maxillae and vertebrae, nine long bones, many teeth, one human scapula and one non-human scapula	skeletal material; human bone	Baldwin, Stuart A.: donor
NH.74.7.2g	Homo sapiens		Contents of one box comprising: a large number of mandibles, maxillae and teeth. Also some animal teeth and clay pipes.	skeletal material; human bone	Baldwin, Stuart A.: donor
NH.74.7.2h	Homo sapiens		Contents of one box comprising: mandibles, maxillae and a section of broken frontal	skeletal material; human bone	Baldwin, Stuart A.: donor
NH.74.7.2i	Homo sapiens		Contents of one box comprising: many vertebrae, two sacra, three sterna, five ribs one complete hyoid	skeletal material; human bone	Baldwin, Stuart A.: donor
NH.74.7.2j	Homo sapiens		Contents of one box comprising: three mandibles, one of which is broken in two halves	skeletal material; human bone	Baldwin, Stuart A.: donor
NH.74.7.2k	Homo sapiens		Contents of one box comprising: four crania, maxillae, mandibles, teeth, one vertebra and two ribs. Also some post-mediaeval pottery	skeletal material; human bone	Baldwin, Stuart A.: donor

ID NUMBER	NAME	PLACE	DESCRIPTION	MATERIALS	SOURCE
NH.74.7.2l	Homo sapiens		Contents of one box comprising: one complete cranium, at least two fragmentary crania, one pelvis, mandibles, three teeth	skeletal material; human bone	Baldwin, Stuart A.: donor
NH.74.7.2m	Homo sapiens		Contents of one box comprising: six intact crania, fragments of two or more crania, left femur, left humerus, three right radii, four vertebrae, sternum and numerous fragments. Also contains a sheep meta-tarsal/carpal and a sample of chalky matrix containing shells.	skeletal material; human bone	Baldwin, Stuart A.: donor
NH.75.6.19	Homo sapiens		Mummified foot and lower leg of a Human (Homo sapiens) that looks to have been sawn off whilst flesh was on bone (achilles tendon still attached but shrunken from point of cutting). Possible amputation.	skeletal material; human bone	Gunnersbury Park Museum: previous owner; Hounslow Library: previous owner; Heston Library: previous owner; Goshawk, Bridget: donor
NH.75.6.7	Homo sapiens		Cranium of a Human (Homo sapiens).	skeletal material; human bone	Goshawk, Bridget: donor
NH.75.6.8	Homo sapiens		Anterior portion of skull, facio-cranial region of a Human (Homo sapiens).	skeletal material; human bone	Goshawk, Bridget: donor
NH.88.37.127	Homo sapiens		Left and right human pelves (male), sacrum, right clavical, right scapula, right humerus, right radius, right ulna, bones of right hand and wrist.	skeletal material; human bone	King's College & Chelsea College: donor
NH.88.37.128	Homo sapiens		Fragments of human cranium, mandible and two loose deciduous teeth	skeletal material; human bone	King's College & Chelsea College: donor
NH.88.37.129	Homo sapiens		Fragments of at least two human crania	skeletal material; human bone	King's College & Chelsea College: donor

ID NUMBER	NAME	PLACE	DESCRIPTION	MATERIALS	SOURCE
NH.88.37.130	Homo sapiens		Six human vertebrae and three ribs (one broken in two)	skeletal material; human bone	King's College & Chelsea College: donor
NH.88.37.131	Homo sapiens		Diaphysis of a right human tibia and a right femur broken towards midpoint, with the proximal section cut near the break	skeletal material; human bone	King's College & Chelsea College: donor
NH.90.18	Homo sapiens		Thoracic vertebra of a Human (Homo sapiens).	skeletal material; human bone	
NH.A1101	Homo sapiens sapiens		Skeleton of a very young human baby (Homo sapiens).	skeletal mount	
NH.A1103	Homo sapiens sapiens		Pelvis of a human (Homo sapiens sapiens).	skeletal material	
NH.A2938	Trichobezoar		Hairball	dry specimen	
NH.A3036	Homo sapiens		Two partial, disarticulated human crania	skeletal material; human bone	
NH.A3037	Homo sapiens		Human cranium, dark stained and varnished, scored in grid pattern across braincase	skeletal material; human bone	
NH.A3038	Homo sapiens		Human cranium and mandible, poorly wired together (mandible did not belong to the same individual as the cranium)	skeletal material; human bone	
NH.A3039	Homo sapiens		Human maxilla in two parts and mandible with bone removed to reveal permanent dentition in jaw. Mandible dirty, broken and poorly repaired	skeletal material; human bone	
NH.A3040	Homo sapiens		Human mandible broken into two parts	skeletal material; human bone	
NH.A3041	Homo sapiens		Right half of human mandible	skeletal material; human bone	

ID NUMBER	NAME	PLACE	DESCRIPTION	MATERIALS	SOURCE
NH.A3042	Homo sapiens		Human maxilla with premortem tooth loss and reabsorption of alveolar bone. Shares mount with mandible 9.881	skeletal material; human bone	
NH.A3043	Homo sapiens		Articulated right arm, left articulated distal humerus and ulna, and left articulated radius and hand (with braces, springs and string to animate).	skeletal material; human bone	
NH.A3044	Homo sapiens		Thoracic vertebrae, on a wire, numbered in sequence with each labelled "Teichmann"	skeletal material; human bone	
NH.A3045	Homo sapiens		Right half of human pelvis	skeletal material; human bone	King's College & Chelsea College: donor
NH.A3046	Homo sapiens		Left parietal region of a human	skeletal material; human bone	
NH.A3048	Homo sapiens		Mandible of young adult	skeletal material; human bone	
NH.A3049	Homo sapiens		Human mandible in sagittal section, some teeth of right side and all teeth of left side loose	skeletal material; human bone	
NH.A3082	Homo sapiens		Anatomical specimen comprising left half of postcranial skeleton, cranium, facial region in sagittal halves and mandible.	skeletal material; human bone	
NH.A3083	Homo sapiens		Human cranial vault painted white and loosely mounted on board with labels relating to features and measurements used in determining cranial breadth	skeletal material; human bone	
NH.A3086	Homo sapiens		Elements from disassembled mounted human remains, comprising bones from two feet, two hands, a rib and a patella	skeletal material; human bone	Baldwin, Stuart A.: previous owner

ID NUMBER	NAME	PLACE	DESCRIPTION	MATERIALS	SOURCE
NH.A3088	Homo sapiens		Anatomical skeleton, previously articulated and mounted, but now broken down. Missing the pelvis (which may be NH.A1103), but has an extra right big toe and some spare bits of finger that have been incorrectly associated with the specimen.	skeletal material; human bone	
NH.A3089	Homo sapiens		Fragmentary skull with attempted repair using tape. Also has tooth with filling associated	skeletal material; human bone	Baldwin, Stuart A.: previous owner
NH.A3115	Homo sapiens		Right portion of human basicranium	skeletal material; human bone	
NH.A3116	Homo sapiens		Right zygomatic and auditory region of human skull	skeletal material; human bone	
NH.A3206	Homo sapiens		Left half of human mandible with no teeth and showing cut marks from defleshing. Likely male.	skeletal material	
NH.A3215	Homo sapiens		Two human teeth, possible fragment of third and three fragments of bone, presumably also human	skeletal material	
NH.A3218	Homo sapiens		Deciduous molar, deciduous incisor; and polished section through a molar	skeletal material	
NH.A3586	Homo sapiens		Set of human teeth glued to a historic black display board.	skeletal material	
NH.A3623	Homo sapiens		Archaeological human sacrum from Stuart Baldwin.	skeletal material	
NH.A3658	Homo sapiens		Milk teeth of a human (Homo sapiens) at birth.	skeletal material	
NH.A3659	Homo sapiens		Human upper and lower cheek teeth (premolars and molars).	skeletal material	

ID NUMBER	NAME	PLACE	DESCRIPTION	MATERIALS	SOURCE
NH.NN.674	Homo sapiens		Human mandible with left ascending ramus broken off and cut marks on right ascending ramus	skeletal material; human bone	
NH.NN.675	Homo sapiens		Human mandible, teeth in generally good condition, bone shows indications of over-cleaning	skeletal material; human bone	
NH.NN.676	Homo sapiens		Human Mandible	skeletal material; human bone	
NH.Z.1403	Homo sapiens		Articulated skeleton of a human foetus with metal rod running through the the spine and top of the head. Left arm, right leg, left metatarsals and three phalanges detached (presumably all from this specimen).	skeletal material; human bone	S. Prout Newcombe Collection:
NH.Z.1404	Homo sapiens		Articulated skeleton of human foetus.	skeletal material; human bone	S. Prout Newcombe Collection:
NH.Z.1834	Homo sapiens		Cranium of young human infant (2-3 months).	skeletal material; human bone	Horniman, Frederick John: previous owner
NH.Z.613	Homo sapiens		Cranium of human newborn with letter labels indicating the different bones that fuse to comprise the skull.	skeletal material; human bone	
nn19570	hair plaits		Many lengths of plaited hair, possibly human hair, which is black in colour. The strands of hair are tied in three places with pieces of pink textile. Label: One ripped up card label which reads "HAIR".	hair; human hair; textile	
NH.11.85a	Homo sapiens		Right half of skull of a Human.	skeletal material; human bone	Edward Gerrard & Sons: vendor

ID NUMBER	NAME	PLACE	DESCRIPTION	MATERIALS	SOURCE
NH.11.85b	Homo sapiens		Left half of skull of a Human (Homo sapiens).	skeletal material; human bone	Edward Gerrard & Sons: vendor
NH.11.86	Homo sapiens		Lower portion of cranium of a Human (Homo sapiens).	skeletal material; human bone	Edward Gerrard & Sons: vendor
NH.12.71	Homo sapiens		Bones of hand of human (Homo sapiens).	skeletal material; human bone	Schlüter, Wilhelm: vendor
NH.28.451	Homo sapiens sapiens		Fluid preserved human caecum and vermiform appendix.	fluid preserved specimen	Schluter, Dr & Mass, Dr: vendor; Edward Gerrard & Sons: vendor
NH.86.27	Homo sapiens		Right humerus of a Human (Homo sapiens) with mud and root staining.	skeletal material; human bone	
NH.90.30	Homo sapiens		Fused ribs from left-hand side of young child (approx. 1 year old).	skeletal material; human bone	
NH.A2847	Homo sapiens sapiens		Disarticulated bones of foetus - almost complete	skeletal material; human bone	
NH.A3085	Homo sapiens		One human incisor and two premolars	skeletal material; human bone	Baldwin, Stuart A.: previous owner
NH.A3670	Homo sapiens		12 human teeth.	skeletal material; human bone	
NH.A3722	Homo sapiens		Five teeth of a Human (Homo sapiens).	skeletal material; human bone	
NH.H.1	Homo sapiens		Skeleton of adult human (Homo sapiens).	skeletal material; human bone	Horniman, Frederick John: donor
NH.Z.1838	Homo sapiens		Skull of a Human (Homo sapiens) with frontal suture.	skeletal material; human bone	Horniman, Frederick John: previous owner
